Independent Auditors' Report

George E. Wright, Member
Diversified Resources LLC
70 Jefferson Boulevard, Suite 201
Warwick, RI 02888

We have audited the accompanying balance sheet of Diversified Resources LLC as of December 31, 2007 and the related statements of income, changes in member's capital, and cash flows for the year then ended. These financial statements are the responsibility of the LLC's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Diversified Resources LLC at December 31, 2007 and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Diversified Resources LLC
Notes to Financial Statements

1. Business Activity

Operated as a limited liability company organized as of January 1, 2001 in the State of Rhode Island, the registered broker and dealer in securities limits its operations as described in SEC Rule 15c3-1(a)(2)(vi) (Subscriptions to mutual funds Firm ID No. 031346) along with placement of variable annuities and variable life insurance policies. The LLC is a member of the Financial Industry Regulatory Authority (FINRA), formerly the National Association of Securities Dealers (NASD). The financial statements present a combination organization of a broker dealer and a registered investment advisor (see Note 6). The majority of activity arises from Southeastern New England.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of Diversified Resources LLC is presented to assist in understanding the LLC's financial statements. The financial statements and their notes are representations of the LLC's management, who is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

Handling Customers' Funds

Customers' checks are made payable directly to the mutual funds ordered by the customer. The checks are promptly submitted to the mutual fund firms, and do not enter the accounts of the LLC. The same procedure is followed with placements of variable annuities and variable life insurance policies to insurance companies. The LLC does not carry securities accounts for customers or perform custodial functions relating to customer securities.

Amounts Receivable

Both commissions and fees receivable are recorded at the amount the Company expects to collect on balances outstanding at December 31, 2007. Management provides for an allowance based on its assessment of the current status of individual accounts, historical performance and projections of trends. There was no allowance for doubtful collections at December 31, 2007. Balances that are still outstanding after management has used reasonable collection efforts will be written off through a charge to the allowance account and a credit to accounts receivable.

Investments

All securities are classified as "available for sale." Securities classified as "available for sale" are carried in the financial statements at fair value. Realized gains and losses, determined using the first-in, first-out (FIFO) cost method, or for mutual funds, the average cost basis, are included in earnings; unrealized holding gains and losses are reported in other comprehensive income.

Revenue Recognition

Commission income from securities transactions, investment management fees and variable contracts is recorded on a trade date basis, or when earned.

Advertising

The Company expenses all advertising when incurred. There was \$500 of advertising expenditures during the year ended December 31, 2007.

See independent auditors' report.

Diversified Resources LLC

2. Summary of Significant Accounting Policies (continued)

Amortization

Lease financing costs have been capitalized and amortized over 39 months using the straight-line method. The Company performed a test of impairment on its intangible asset and no loss was recorded at December 31, 2007.

Depreciation

Depreciation is computed using the straight-line method over estimated useful lives of 5 to 7 years.

Income Taxes

Federal and state income taxes are not payable by, or provided for, the LLC. The sole member is taxed individually on the LLC's earnings; accordingly, the financial statements do not contain a provision for federal and state income taxes.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In planning and performing our audit of the financial statements of Diversified Resources LLC as of and for the year ended December 31, 2007 in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007 to meet the SEC's objectives.

This report is intended solely for the use of management, the SEC, the FINRA, and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
